OBJECTIVE

Driven by curiosity and a passion for innovation, I aim to bridge the gap between theoretical knowledge and practical application, learning from industry experts and contributing to ground breaking projects that shape the future technology.

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, HTML, CSS

Technologies: MongoDB, MySQL, MERN Stack, React.js

Concepts: Data Structures & Algorithms, OOP, REST APIs

Tools: Figma, Canva, MS Office, Logisim, Stitch

EDUCATION

- BS, Computer Science** 3.91/4.00
International Islamic University, Islamabad
- FSC, Pre-Engineering** 983/1100
F.G Postgraduate College For Women, Rawalpindi
- Matric, Biology** 1070/1100
Peak Montessori and High School

EXPERIENCE

Neutrawise

- Web Development Intern** Aug-Oct 2025
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Improved UI/UX and collaborated on frontend components.
- Participated in debugging and code reviews.

PROJECTS

To-Do List Application | MERN Stack

- Built a full-stack task management app with CRUD operations and authentication.
- Developed REST APIs and responsive React frontend.

Restaurant Management System | Frontend

- Designed responsive restaurant management interfaces using Stitch AI and frontend technologies.
- Implemented menu browsing, ordering, and billing views.

Cafe Management System | C++ / OOP

- Built an order and billing management system using OOP concepts and file handling.

Car Rental Management System | Java / GUI / MS Access

- Built a car rental management system using Java GUI and MS Access database.
- Implemented features for viewing available cars, renting cars, and returning rented cars.

E-Commerce Webpage | HTML / CSS

- Designed and developed a user-friendly e-commerce webpage using HTML and CSS, featuring product listings, detailed descriptions, and product selection functionality for a seamless shopping experience.
